ABOUT GLOBAL FC

Global Football Club is a professional football club and training academy based out of Taliparamba, founded in 2015. Global Football Club is the first academy in the city to provide Grassroots Training for Kids across Kannur. It was founded by Mubashir Ali, AFC /AIFF Licensed Coach with a passion for football who saw an opportunity to develop the sport by trusting the new generation of players in the city. He started out on a mission to take football from being just a hobby for kids to a competitive global sport similar to the way it is celebrated across the world. He and his close associates have been successfully running Global Football Club for over 9 years.

Started with just 20 footballing kids from the small city of Taliparamba, the club has been a huge success in the recent years. Now 200+ students are being trained on different age groups of U21/U17/U14 in our various training programs. Global FC has grown into one of the most prominent football clubs in Kannur. With several certified coaches among our ranks, Global FC is the top destination for nurturing young football talents. In addition to our training program and our academy, Global FC competes all over India in various regional and national competitions and in our years 10 success story we have secured a lot of team/individual achievements.

MISSION

Focuses on holistic development- technical, tactical, physical, mental & social. To be the best institute for holistic development of football professionals by pursuing excellence and nurturing relationships within the GFC community in a sustainable manner. GFC aims to provide best-in-class football training to talented players by adopting the latest coaching methodology and best practices in player development
